Use second application form for additional employees

If neither resident or business applicant, state briefly, your reasons for requesting an access decal. _____

The issuance of this decal does not grant an open license or permit for access to the City of Malibu at all times, but is subject to the discretion of the Enforcement Personnel in charge of the barricades erected during times of Emergency. The decision to allow passage through a barricade is predicated on conditions of safety and interference with Emergency Personnel in the performance of their duties. Failure to abide by the direction of the barricade personnel will result in the revocation of the decal.

Use of the decal to "sight see" or travel to any destination within the City Limits during an Emergency, other than area indicated on the decal, will result in the revocation of the decal.

NSF checks will be cause for revocation of decal plus a \$20.00 processing fee payable to the City of Malibu _____ initials of applicant.

I agree to the terms and conditions of issuance of this decal and will abide by same. I swear that the above information is true to the best of my knowledge.

Signature _____ date _____
